The State Land Surveying and Cartographic Institute (Statni Zememerycky a Kartograficky Ustav) has been established within the Ministry of Technology. It will conduct public surveying and mapping work of nation-wide importance and work of special nature and importance. Its main office will be in Prague.

The Slovak Land Surveying and Cartographic Institute (Slovensky Zememerycky a Kartograficky Ustav) has been established as a regional organization within the Commission of Technology. Its main office will be in Bratislava.

The technical advisory group is an auxiliary organ of the Ministry of Technology and has not more than 25 members. The members of the group are appointed by the Minister of Technology for 2-year terms, and are chosen from among representatives of the above-mentioned organizations, institutes of higher education, national geodetic and geophysical committee, the Military Geographical Institute, national committees, and mass and interested organizations of the working people.

The chairmen of the related components for public surveying and mapping in the Ministry of Technology and in the Commission of Technology, and the chairmen of the Institute and the Slovak Institute, are ex-officio members of the technical advisory group. Other technical workers may be called to cooperate as experts from time to time. It is the task of the group to issue statements and opinions concerning the solution of nation-wide basic problems in the field of public surveying and mapping, and to issue judgments and comments concerning plans of importance as far as they concern public surveying and mapping. Its main office will be in Prague.

The above information is as of 25 April 1950.
